Detailed Action

1. In view of a Preliminary Amendment filed on December 2, 2004, claims 1-18, 21-23, 25-27, 29-34 are pending.

Election/Restrictions

2. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in response to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-18, 21-23, 24-27, 29-30, 32-34, drawn to an ester compound, process of making, related products, and process of use of the compound thereof.

Group II, claim(s) 25, 31, drawn to crosslinked hydrogel.

The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: an ester compound in Group I and the crosslinked hydrogel of Group II do not share the special technical features because Group I is directed to an ester compound, process of making, related products, and process of use of the compound thereof while Group II is directed to crosslinked hydrogel that does not possess the ester compound of Group I.

A telephone call was made to James J. Napoli (Registration No. 32,361) on December 29, 2006 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicants are reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
